ABOUT

Gannein plays techno that takes its time. The kick and the bass carry the room. Percussion rolls underneath and one melody climbs over the top and stays. His sets lean on weight more than speed and come into their own over long hours.

His records are out on Soma, Vault Sessions, Mindtrip and ARTS, with support from Polygonia and Karenz. In 2023 he started GARECO, the warm home of his own work. NIENN followed in 2026, deeper and more restrained, open to the artists he believes in.

He opened the Globus floor at Tresor in 2024 and has played across Berlin, Barcelona, Paris, London and Hamburg. For Vault Sessions 307 he played only his own music, most of it unreleased.
